

Let's Make It Baby

by Jon Bon Jovi /Richie Sambora /Desmond Child
from New Jersey demos(1988)
transcribed by Rumen Krastev

Hail to all 4 strings freaks!
Here is one really "dangerous" song recorded at the "New Jersey" sessions-1988!
"Let's make it baby" is not a typical Bon Jovi song-
It sounds to me like a "The doors"'s song with Jon on the vocals!
Really direct lyrics - "Come on honey, don't waste your time,
turn off the lights and let's make it, baby!":)

Main Riff:

```
G|-----|
D|-----|
A|--8~----6--8-----6~--8~----6--8-----6~--|
E|-----8-----6~--6--8-----8-----6~--6--8-----|
```

Repeat the Main Riff "1000" times, just kidding, play it "only" 6 minutes
(Listen to the song to get the timing right)and if you don't looking like a
mad dog after the song, you need really serious to call a doctor and to relax!
My tip: Don't try to play the song again in the next 24 hours, it's pretty
dangerous to your health!

Let's Make It Baby

by Jon Bon Jovi/Richie Sambora/Desmond Child

When I look in your eyes I can feel the fire.
A see through disguise cant conceal desire
I've been readin your lips, they don't need no translation
They want more than a kiss, I come to make my donation

So turn out the lights, I'm going down slowly.
Don't tell me what's right. Just tell me you want me.
Tell me you want me.
Just tell me you want me, want me, want me

Let's make it baby
Let's make it baby
Let's make it baby
Let's make it baby

Come, come, come a little bit closer
I want to play doctor.
It keeps getting harder, harder, harder to keep me away
I want to taste the sweat thats runnin' off of your body.
Get the sheets all wet, I wanna make you feel naughty

Lets make it baby
Let's make it baby
Let's make it baby
Let's make it baby

Turn out the lights
Don't tell me you love me
Just tell me you want me,
Dont tell me you love me
Tell me you want me, want me,
want me, want me, want me,
want me, want me,Ahhhhhhhhhhhhhh

Let's make it baby
Let's make it baby
Let's make it baby
Let's make it baby
Baby, baby, baby
